Applications should be submitted in-person to the Visa Application Centre, thus excluding possibility for doing it via a representative as it happened before. This is explained by the requirement for all applicants to have a fingerprint scan as part of the application process. Applying for a UK visa consists of the following steps:

1. Completing the online application form (www.visa4uk.fco.gov.uk),
2. Booking an appointment at the Visa Application Centre (www.visaappointments.fco.gov.uk) and submitting the documents to the Visa Application Centre and, if required, attending the interview at the Embassy Visa Section (certain categories of applicants might be exempt from interview).

It is advisable to apply for visa well in advance of travel. During holiday and summer periods applications should be made at least two months in advance of travel dates.

PLEASE VISIT THE EMBASSY VISA PAGES (www.britishembassy.gov.uk/ukraine) OR CONTACT THE Visa Application Centre TO GET ALL DETAILS REGARDING VISA APPLICATION PROCEDURES.
